DETAILED ACTION

- The preliminary amendment filed on 9/21/2006 is acknowledged.
- Claims 1-9 have been examined.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 and 8-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Friskney et al. (US 2004/0120705)

- In reference to claim 1

Friskney et al. teaches determining information of each link protection attribute section included in a Traffic Engineering (TE) link wherein there is one link protection attribute section of the link and it is one of Extra, Unprotected, Shared, Dedicated 1:1, Dedicated 1+1 or Enhanced; carrying the information of the link protection attribute section included in the TE link in a Link Protection Type sub-TLV (*customized Type Length Value (TLV)*); distributing the TLV in the optical network via Traffic Engineering Link State Advertisement (TE LSA). (paragraphs 0138-0139)

- In reference to claim 2

Friskney et al. further teaches determining the number of link protection attribute section structures for the TE Link wherein the number is one and information of each link protection attribute section carried in the link protection attribute section structure, in accordance with the subscriber configuration on the link. (paragraphs 0138-0139)

- In reference to claim 3

Friskney et al. further teaches the information of the link protection attribute section is type of the section and/or information of bandwidth resource occupied by the section. (paragraphs 0138-0139)

- In reference to claim 4, 8-9

Friskney et al. further teaches carrying the information of the link protection attribute section on the TE link in a field of link protection attribute section structure of the customized TLV. (paragraphs 0138-0139)

Allowable Subject Matter

Claims 5-7 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
